About Me

Hello! I'm a software engineering student at VTC with a passion for front end development (especially React!). I love learning new technologies like GraphQL, Redux, React Hooks, and more.

Work Experience

Resource Partners @ Global Foundries

Asset Manager

2019-06-23 - 2019-11-07 • 6 months

Working with Resource Partners as an Asset Manager generally consisted of:

- Keeping track of inventory
- Imaging machines
- Deploying machines to end users
- Answering emails

Calypso Continuing Education

Web Developer

2019-05-26 - 2019-09-03 • 5 months

I helped maintain Calypso's eCommerce website as well as their LMS.

Their eCommerce Store was built with Wordpress + WooCommerce, and their Learning Management System was built with Open Edx (powered by Django).

Education

Vermont Technical College

2018-08-26 - 2023-05-02 • 4 years

I'm currently studying Software Engineering (BS) at Vermont Technical College.
